

# Kodak Versamark CS150 system controller

## Easy to use system controller

### Features a true graphical user interface

CS150 system controller features easy to use Microsoft Windows XP-based mailscape software to control Kodak Versamark narrow format printing systems. It is a modular software package that controls the entire printing process, from reading input files to creating the layout and controlling the printers.

CS150 features a truly graphical user interface with WYSIWYG print preview capabilities. With its integrated support of printer diagnostics and database file inputs, CS150 becomes the ideal choice for barcoding and date coding, addressing, personalization and other variable data imprinting applications.

From the production screen you can see production results in real time and can reprint any document in the job with the click of a button.

CS150 permits configurations of as many as three printers (depending on printer model), which gives you a wide array of printing options.

In addition to being flexible, the CS150 system controller with mailscape software is also powerful. With read and image technology the mailscape software has the ability to connect to external input devices like camera systems and barcode readers, process their input, perform database lookups and instruct the printer to print the corresponding data.

## Printers supported

DS5120, DS5122, DS5240  
DS4300,  
DS4350,  
DS7122

## Operating system

Windows XP

## Input formats\*

Access  
Excel  
Fixed length  
Delimited  
Field count  
DBase  
FoxPro  
Paradox

\*Check with your local sales representative for specific versions supported.

## Maximum record length

Fixed and delimited: 32,767 bytes  
Others: Database dependent

## Maximum number of fields

245

## Maximum field length

Fixed and delimited: 32,767 bytes  
Others: Database dependent

## Maximum fixed text length

32,767 characters

## Print parameters

Language, print density, rotation (0°, 90°, 180°, 270°), normal or reverse

## Document length

0.5" to 136" (depending upon printer resolution)  
– 5000 series and DS7122  
0.5" to 12" –DS4300 and DS4350

## Line spacing

Font defined or user defined

## Resolutions supported

5000 Series and DS7122  
120 x 120 dpi  
120 x 240 dpi  
240 x 240 dpi  
240 x 480 dpi

## DS4300 and DS4350

300 x 300 dpi  
300 x 600 dpi
