Kodak Versamark DS5122 printing system

Fast, flexible, variable imprinting solutions

Modular, easy to merge capability

The Kodak Versamark DS5122 is a 2.13-inch-wide (5.41 cm), fully integrated digital printing system. The DS5122, which is also available as a printer only, features: letter-quality, crisp character definition; flexibility in font selection and positioning; pinpoint registration at speeds of up to 1,000 fpm (300 mpm); and resolutions of 120 x 120 or 120 x 240 dpi.

The DS5122 meets a wide range of variable data imaging application needs including mailing and fulfillment business forms, tag and label, direct mail and booklets. It is ideal for barcoding, numbering, addressing, personalization and spot color. Available also in a printer-only configuration,

DS5122 can easily be installed with web or sheet-fed presses, collators, mail bases, folders and a variety of other in-line or off-line equipment. The components include:

- Easy-to-use yet sophisticated CS150 controller with mailscape software featuring a graphical user interface, online WYSIWYG job setup, built-in help, advanced record control for reprint, cue and search functions and expanded database support

- Optional mounting packages

- A wide variety of inks including custom colors
